ons of the city is Mr. A. D. Graves of 288 Ninth avenue, who recently moved here from Newaygo. While advising a friend to consult Dr. Rankin, he related his own experience. He said:

'I never was so surprised in my life when Dr. Rankin said he was through with the operation on my nose and showed me a large polypus he had just removed. I had been operated on before for the same trouble and it was as painful as having a tooth extracted. And not only that, but they always soon returned.

"But Dr. Rankin removed several from my nostrils at two different sittings and I never felt a particle of pain and, although that was several months since, they have never returned. When I first began treatment with Dr. Rankin I not only had these polypii and a bad case of catarrh, but I had asthma, too. My asthma now has disappeared entirely, my nostrils are clear and my catarrh wonder fully better, and I am going to continue the treatment until I am cured. I am on my second month now, and the doctor has done so much for me already that I am confident he can cure me entirely.

"I shall be glad to verify this statement and also explain his superior mode of treat-
